Geloftevolk Republikeine - Brief aan ZUMA

The Office of the State President of South Africa  
Private Bag X 1000  
PRETORIA

Dear Mr Jacob Zuma,

### **BARBAROUS KILLING OF WHITE PEOPLE IN SOUTH AFRICA**

Currently, it is the responsibility and the obligation of the ANC government to maintain peace and law and order in South Africa. In many ways, the ANC is not successful in their endeavour to fulfil these duties which is resulting in disastrous consequences for all the citizens in South Africa.

One of the key issues is the fact that white people are brutally murdered by black people in the most gruesome manner imaginable, for more than fifteen years now. As you know, the number of people killed in South Africa, amount to more than 43 per day.

Last week, yet another farm murder took place near Lindley where three white people were killed by black people. One of the three victims was a three year old baby girl, who was shot in the back of her head – execution style. On Friday, a white woman was killed by black people who hit her on her head with a 16 pound hammer. Her husband's eyes were also removed by the black attackers and he is in a critical condition in hospital.

These murders continue relentlessly (more than 50 000 white people were killed by blacks since 1994) and the Boer nation cannot and will not endure these terrible crimes any longer. We are convinced that the ANC can prevent these murders providing that the political will to do so exists, since the rate of farm murders decreased by 75% during the world Cup Foot Ball Tournament earlier this year.

For many years we have been exposed to the senseless killing and murder of innocent law abiding white people, but now it has reached breaking point. We, the Boer nation, therefore urgently request you to instruct the commanders of the black farm murderers, to discontinue their mission to kill white people with immediate effect, at the latest on 16 December 2010.

---

There after, we, the so called right wing leaders, will no longer discourage our members and our supporters to refrain from retaliating with exponential violence, should these attacks be continued.

To us, there is no doubt what the ANC's convictions are in this regard – see <http://www.dienuwesuidafrika.com/>  
Nelson Mandela sings with his communist comrades about killing white people. For decades the ANC propagated this extreme hatred towards the white minority of South Africa. These actions have incited the murders and extreme violence being perpetrated against the white minority

We also make logical deductions of the fact that Julius Malema instigated Boer killings and he ignored an official Court Order to cease these actions. However, only after the murder of Mr Eugene Terreblanche, disciplinary charges were brought against Julius Malema by the ANC and on the date of the disciplinary hearing, this charge was removed from the charge sheet.

There is no doubt as to how we are to regard the content of this message, conveyed to the public by the ANC in their manner of dealing with Malema's behaviour.

The Boer people are now literally confronted with a situation where we have to choose between waiting for our turn to be killed, or to take the power into our own hands to ensure our survival. Most of the Boer people have chosen the latter option.

Yours faithfully

---
